

Expedient Technology Solutions Recognized on CRN's 2022 MSP 500 List

Miamisburg, OH, February 14, 2022 — Expedient Technology Solutions, Stress Free IT® brand of Cyber-Focused Managed IT Services announced today that CRN®, a brand of The Channel Company, has named Expedient Technology Solutions to its Managed Service Provider (MSP) 500 list in the Pioneer 250 category for 2022. CRN's annual MSP 500 list identifies the leading service providers in North America whose forward-thinking approaches to managed services are changing the landscape of the IT channel, helping end users increase efficiency and simplify IT solutions, while maximizing their return on investment.

With many customers still recovering from the impact of the ongoing pandemic, MSPs have become a vital part of the success of businesses worldwide. MSPs not only empower organizations to leverage intricate technologies but also help them keep a strict focus on their core business goals without straining their budgets.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on- and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

“In addition to having to adjust their own business operations to account for the changed conditions during the pandemic, MSPs have also seen increased demand for their managed communications, collaboration and security services,” said Blaine Raddon, CEO of The Channel Company. “The solution providers on our 2022 MSP 500 list deserve credit for their innovative and game-changing approaches to managed services in these unpredictable times, as well as their ability to optimize operational efficiencies and systems without straining IT budgets.”

“We are thrilled to be named to CRN's MSP 500 list again this year for our efforts in providing Stress Free IT® to our clients. We have invested heavily into our cybersecurity capabilities to be able to help protect our clients and will continue to advance these capabilities into 2022. Even at their size, small to medium sized business have tremendous risk when it comes to cybersecurity. We are helping our clients to know where they have risk and are helping them to address that risk with solutions that fit the SMB budget” states Marcus Thompson, CEO/CISO. “Additionally, optimization of cloud strategies provides opportunities to manage, share and control the data. Utilizing the cloud extends an affordable, expansive platform for securely storing data. A powerful collaboration, our managed IT and cybersecurity services help our clients with daily operations and helps to protect them from cybersecurity threats that seek to shut down their business.”

The MSP 500 list will be featured in the February 2022 issue of CRN and online at www.crn.com/msp500.

About Expedient Technology Solutions

Expedient Technology Solutions is a leading Cybersecurity-focused Managed IT Service Provider (MSSP / MSP) serving the Ohio valley from the greater Dayton/Cincinnati region.
